

Office Chief Medical Service
USA Camp Hospital
Camp Sherman, Ohio.
August 1, 1919

Dr. H. Edw. Blair,
819 W Franklin St.,
Hagerstown, Md.

Dear Dr. Blair:

It is impossible for me to tell you what your rank and salary would be if you were appointed to the staff of the Henry Ford Hospital. I do not know you at all. I know nothing about your qualifications. I do not at this moment know whether the Hospital is coming back from the government or not to once. The opportunities of course are first open to the men who left us to go in to the service. Most of them want to return. Anyone else would naturally have to come in and show their worth to us in comparison, if they wish to go ahead of any of these. Under the circumstances, unless you come up and see the plant in Detroit after we return, I am quite sure you would not have an idea of what we are doing. You might see Dr. F. Janney Smith of Baltimore who is just returning from Camp Lee. He can give you a good verbal picture.

Truly Yours,

FRANK J. SLADEN

Major M.C.
